## Southwestern Family Services

Introducing in-home,  
community and outpatient  
behavioral health care  
services at SFS

Southwestern Family  
Services... Providing  
Quality Comprehensive  
Behavioral Health Services

**Each child is unique, and so are our programs. Southwestern Family Services designs individualized care for children and adolescents with behavioral health issues, whether in-home, in school or in the community.**

At SFS we utilize a treatment model called Behavioral Health Rehabilitative Services (BHRS), sometimes referred to as "Wraparound". The Wraparound/BHRS Model is based on individualized, needs-driven planning and services. We provide an unconditional commitment to create services "one kid at a time".

## **PURPOSE...**

The purpose of Wraparound/BHRS services (sometimes simply called "Wrap") is to provide short-term, intensive mental health services to a child and his or her family in their home, school, and community.

## **GOALS...**

The primary goal of Wraparound/BHRS is to normalize a child's behavior and to prevent out-of-home placement. However, wrap provides many other potential benefits. Wraparound/BHRS services may also assist in the transition of a child from acute psychiatric hospitalization or long-term residential care to his or her home environment.

## **TREATMENT...**

We develop a unique, comprehensive treatment plan for each child that identifies his or her strengths and needs, all within the Wraparound/BHRS Model. By providing services in the child's natural environments, the child has a better chance of success in the home, school and community.

## **CASSP...**

All services are provided based on the principles and guidelines outlined by the Pennsylvania Children and Adolescent Service System Program (CASSP).

We believe children should be treated in the least restrictive environment. Our services are individualized to each child and are designed to meet the specific needs of both child and family.

## **ACCESSING WRAP/BHRS**

**Fees are never charged to the family.**

All services are provided based on the Medical Assistance program. If you don't currently have MA for your child, Southwestern Family Services will help you get it.

## **OTHER SFS SERVICES...**

- Medication Management
- Board Certified Psychiatrists
- Licensed Psychologists
- Certified & Licensed School Psychologists
- Licensed & Credentialed Therapists for Individual, Family or Group Therapy
- SAP Certified Intervention Therapists

For information about accessing Wraparound/BHRS services, contact Ruth Lubik at **(412) 781-3990**.
